

TASK 6 – DASHBOARD VISUALIZATION (PART 1)

- Create visuals using:
 - Bar, Column, Pie, Donut
 - Line, Area, Scatter
 - KPI & Gauge Cards
-  **Task:** Show overall key metrics and trends.

OBSERVATIONS

- **Total sales and profit are shown clearly using card visuals.**
- **The KPI helps track business performance.**
- **Bar and column charts compare sales across categories and states.**
- **donut charts show the sales share of each category t.**
- **Line and area charts show sales trends over time.**
- **The scatter chart shows the relationship between sales and profit.**
- **The dashboard makes it easy to understand business performance and identify key trends.**

Summary

The dashboard provides a clear view of sales, profit, orders, returns, and trends. It helps users analyze business performance and make better decisions using different Power BI visuals.
